The ORION Medical Management program is an innovative suite of resources and services that assembles clinical and cost management experts. Our sole purpose is to work for and on behalf of our customers and policyholders to support, educate and assist in managing their risk. To achieve this, ORION is committed to:

- Identifying and partnering with experts who are competent, reliable and skilled in the services they provide
- Focusing our program on positive clinical and financial outcomes

#### **ORION RESOURCES AND SERVICES**

On a consultative basis, ORION's experienced nurses work with clients to select the expertise that best fits the individual complex medical situation. We know that one size never fits all and no two circumstances are alike. We will ask the right questions and consult with you to ensure the best possible clinical and financial outcomes. It's important that the resources we provide complement and enhance those you already have in place.

#### **ORION UNDERWRITING SUPPORT**

Our nurses provide high quality, in-depth clinical review and financial risk analysis for StarLine medical underwriters. The risk analysis is based on evidence based guidelines and published standards of practice. ORION's expertise provides underwriters with the clinical background and projections to assist them in achieving the most competitive pricing and contract options.

#### **REACH OUT TO ORION**

Early identification of complex cases leads to the greatest opportunity for success. It's the most appropriate approach that will provide the best clinical outcomes and cost savings for the policyholder or risk taker.
